

Where healing the body, mind and soul is taken a step beyond...

Inner Vision Wellness Centre™

The Inner Vision Wellness Centre focuses on holistic health care for the physical, mental, emotional and spiritual body. Beneficial modalities include Aroma, Music, Gemstone and Colour Therapies and Reiki (Energy Healing), Chakra Balancing, Herbs, Shaman Traditions, Meditation, Hypnosis, Regressions, Grief Counseling and Intuitive Counseling. Custom painted spiritual portraits and holistic products are also available.

Pamela R. Nine-Gladstone, Owner and Founder of the Inner Vision Wellness Centre, is a Certified Usui and Tibetan Reiki Master, Therapist, Ordained Minister, Visionary Artist and Intuitive Counselor. Through her innovative practice and teaching, many experience personal healing and spiritual growth. The extrasensory impressions received in her Reiki, Visionary Art and Intuitive Counseling often include insights into personality traits, health issues, relationships, career, goals, talents, life lessons, life purpose, spiritual guidance, past life experiences, aura colorations and the presence of angels, guardians, spirit guides or loved ones.

Pamela was raised on what was once her

grandparents 92-acre farm in Knox County, Tennessee, and still lives in Knoxville, Tennessee, with her two miracle sons. The "miracles," were predicted many years ago by her dear friend and Mentor, Bobby Drinnon. Says Pamela, "Through Bobby Drinnon, I have learned many things, and most importantly, that the gifts of intuitive wisdom are from love and used in the highest good."

At an early age of five, Pamela began the journey toward her spiritual awakening and is no stranger to the many miracles that have occurred in her life. The exposure to her Cherokee heritage and traditions, and the experience of unconditional love from her late maternal Grandmother played a major role in her spiritual path and desire to seek out, and ultimately find, a truth beyond conventional teachings of religion and science. After years of learning life's lessons and the sudden loss of her

Father and best friend, Pamela was spiritually guided to that truth. She now knows her true life purpose is to heal and teach the love and inner peace she graciously found in God, the Holy Spirit.

A successful businesswoman and professional Dermapigmentologist for over eighteen years, Pamela has also authored writings on meditation, chakras, auras and spiritual topics. She is currently developing a series of meditation CDs, and writing her new book entitled, Spiritually

Awakening the Divine Light Within, which will include a morning and evening meditation CD. Pamela's new book will share her amazing personal journey and show others how they, too, can walk in the light of the Divine path and discover their own personal gifts of inner awareness. Says Pamela, "These gifts, I believe, are available to anyone who seeks the truth . . . in love and light."
